Celebrate Our Nation's History with the Limited-Edition **Formation of the Union Set**

In 1776, 13 small separate colonies declared their independence from Great Britain. In 1787 Delaware was the first colony to officially join the newly established Union, and in 1790 Rhode Island became the 13th. These and other events that occurred between 1774 and 1792 set the course of American history. **The Formation of the Union Set** tells this story with photography of many of the coins utilized prior to the establishment of the U.S. Mint, plus fascinating images of rare, historic archival records. The set contains thirteen 50 State Quarters™ from both the Philadelphia and Denver Mints—that's 26 quarters in all; including all those very difficult-to-find early quarters and the newest ones hot off the coin presses! **The Formation of the Union Set** is the third *Coin & Chronicles* partnership project between the United States Mint and the National Archives and Records Administration (NARA). Only 50,000 of these unique sets will be sold, so be sure to order your official, 50 State Quarters™ **Formation of the Union Set** today! Please allow 6-8 weeks for delivery.

**\$19.⁹⁵
Each**

**Own a Piece
of History**
